Next Meeting: 12:00 pm, Monday, November 4, 2019. Presentation by PREDCI

Presentation: Main Street Guymon for Pangaea!

Melyn Johnson, Main Street Guymon Program Director, presented how the idea behind Pangaea event began. Pangaea is the scientific theory that the continents were one large land mass and have since separated to the planet as we know today.

Each continent has a family living in the Guymon area. Antarctica is represented by the Special Needs community. Stories of the family, country and culture are written for the event booklet. Each family works with the caterer to cook the specialty of their country. The families dress in the traditional clothing and answer questions as they go about the room.

Tickets are available.
